The UCF Report

Volume 7, Number 34

For Faculty and Staff

April 17, 1985

The map indicates (X) the location of the site dedication ceremonies, and the locations of the road closures. As stated, limited traffic through the Park, on Research Parkway, will be permitted for destinations within the closed area, but will be reduced to two-way traffic on the north half (westbound lanes) of Research Parkway.

Research Park readying for NTEC

The Central Florida Research Park will be the locale of a major event April 24 when the Naval Training Equipment Center will host a dedication to mark the site of its \$24 million complex due for completion in 1987.

As a result, certain portions of Research Parkway and Technology Parkway will be closed to traffic between 8:30 a.m. and 2 p.m. that date. Only limited and necessary traffic will be permitted through the park. Signs will be posted several days previous to the ceremony to announce the closings.

Speakers at the ceremony will include Undersecretary of the Navy James F. Goodrich and Florida Lt. Gov. Wayne Mixon. The invitation list includes members of Congress and the Florida

legislature, senior military officials, and numerous community, UCF and Research Park representatives. An estimated 800-1,000 people are expected to witness such additional attractions as a Navy band, jet fly-over and the Navy Orlando 50-flag colorguard.

Research funds remain stable

Despite warnings from Raymond Bye, director of the Office of Public and Legislative Affairs at the National Science Foundation (NSF) that their budget for research dollars to universities may experience a freeze, UCF will be unaffected, according to Joan R. Burr, director of UCF's Sponsored Research Division. In fact, Burr fully expects UCF to match the record-breaking amount of research dollars brought in last year.

Although the NSF provides 27 percent of the total federal dollars for research at universities, UCF is not reliant on this particular source, she said. UCF currently receives several grants from the NSF. Burr feels that other institutions will probably face a reduction in funding, but doesn't foresee any overall decrease in federal funding for UCF. Other universities may not have diversified their sources for funding as effectively as we have, she added.

For UCF's 1983-84 fiscal year, 53 percent of the \$7 million in outside support came from the federal government, 33 percent from private industries and foundations, and 24 percent from state and local governments.

The College of Engineering garnered the largest yearly amount — \$1.7 million — with its 74 projects. UCF's Florida Solar Energy Center at Cape Canaveral received more than \$1.4 million. Of the 202 research programs at UCF, basic and applied research received the largest portion of the funds. Last year's record, which represented an 11 percent increase in funding from the previous year, brought UCF's total research dollars to \$48 million.

President Colbourn offers positive predictions for UCF

The University of Central Florida — built upon a foundation of broad-based liberal arts education — will move into the second half of the 1980's by continuing to stress programs that distinguish UCF from other institutions or else relate to the particular needs of the community and region, President Trevor Colbourn predicts.

Dismissing the notion that UCF could or should be a comprehensive institution on the University of Florida model, Colbourn said in a many faceted interview with the *Orlando Business Journal* that, in a world of limited resources, the school's path to excellence lies in its ability to be selective in fostering areas of strength and always being conscious of the need to maintain a strong liberal arts core. "To a large degree, that's the course we've been following," Colbourn noted, listing achievements that correspond to the blueprint.

achievements of the present

"We have one of the 10 largest computer science programs in the country today," Colbourn said. "The time will come when we can say it is one of the 10 best. We developed the first independent doctoral program in computer science in the state and we got the first million dollar endowed chair in computer science. I think the College of Business Administration can make many similar claims."

Likewise, Colbourn said, the College of Engineering "is now one of the larger and better colleges in the country and does have good doctoral representation in its programs now offered." UCF's Hospitality Management Program, the new Institute of Simulation and Training Systems and the Institute of Electro and Applied Optics are especially good illustrations of aligning academic resources with community and regional needs, Colbourn noted.

hopes for the future

Looking to the future, Colbourn said he hopes to further improve existing strengths — and to add new ones. "For the future, we're considering a minor in the field of Judaic studies. We're looking to expand our program in anthropology, particularly archeology. We're looking to enhance programs in the arts and sciences generally. For example, we're hoping to strengthen the music program here."

Colbourn was quick to praise the commitment and quality of faculty. "I think we have a much better faculty than we deserve in terms of the recognition and compensation they receive," he observed. The attractiveness of Central Florida has helped lure a first-rate faculty, he said, but "there are limits to how much sunshine and orange juice can compensate for other shortcomings."

Noting forecasts that differ from his own, Colbourn said his personal crystal ball predicts a leveling off of enrollment growth. "I think we're going to have a bit more breathing space, but I think it's going to be rather temporary. A lot depends on the economy, the kind of immigration that occurs and so forth."

the campus as a community

On the character of UCF, Colbourn said that more on-campus housing would return substantial dividends. "I, for one, would hope that we will be able to make some meaningful progress within the very near future in terms of adding significant additional dormitories to the campus. There is no doubt that we would fill them. There is no doubt that there is interest. There is no doubt, either, that it would make a significant difference to the level of campus spirit and the identity of the campus as a community."

Campaign seeks aid in "Quest"

UCF's Quarter Century Fund Campaign, the "Quest for Excellence," is racing a May 1 closing deadline, ahead of schedule and on-target with its \$5 million goal. About 87 percent, or \$4.4 million, has been provided or pledged.

As the clock ticks down towards May 1, a faculty and staff campaign has been launched to help get the drive over the top. Faculty and staff members have been invited to give through pledges or outright gifts. Gifts down to a minimum of \$100 per year may be provided through the payroll deduction mode.

Gifts may also be designated to particular needs. Revenues for endowment will be allocated to library enhancement, faculty enrichment and a scholarship fund.

UCF Small Business Center develops global trade program

The keys to success in international business are available for the asking at UCF, where counseling, workshops and seminars on the subject are now offered by the Small Business Development Center (SBDC).

The targets of the new program are individuals and organizations in the community with international focus, said Lisa Gentile, coordinator at the SBDC.

Gentile, with an MBA in international business, a masters degree in Spanish, and a background in import/export management, hopes to attract educators, students, SBDC consultants, businesses, international trade organizations and government agencies to use the service.

"This pooling of resources will bring increased knowledge of the international marketplace, promotion of international trade, an increase in the availability of information and library resources, hands-on involvement of students,

and enrichment of faculty expertise," Gentile observed.

The SBDC program is two-dimensional, Gentile said. It is designed to expand community consulting services by integrating current resources and sponsoring seminars and workshops in conjunction with the international trade community, assisted by university faculty, the Florida Council of International Development and the World Trade and District Export Council members under the direction of the U.S. Department of Commerce. Areas of application include industry analysis, export capability, licensing, documentation and logistics, terms of payment, customs and duties, exchange rates, data banks, federal and state assistance programs and others, Gentile explained.

More specific information on the new UCF international business program can be obtained by calling Gentile, at (305)275-2796.

Mrs. Alice Stringer died April 15 after a prolonged illness. Alice retired from UCF in May 1981 after 14 years at the university, most of them as staff assistant to J. P. Goree, vice president for business affairs.

The family asked those who so wish make donations to her memory to Hospice of Central Florida, P.O. Box 449, Winter Park, 32790.

Grant opportunities

Instructional Software Development (FL. DOC) — Develop instructional software for delivery through a computer assisted, self-study learning system for the training course titled Youthful Offender Program for Correctional Officers. The purpose is to provide self-paced instruction on an individualized basis to Correctional Officers and support staff. Due April 30.

Institutes for Teachers and Administrators (NEH) — Provide intensive, residential summer study and appropriate follow-up activities for groups of pre-collegiate humanities teachers or administrators. Institutes should focus on important texts and ideas in the humanities and the most effective ways of teaching them. Due May 15.

Collaborative Projects (NEH) — Assist groups of elementary or secondary teachers who wish to establish a systematic and sustained relationship with neighboring colleges or universities in order to improve the teaching of the humanities in the schools. Develop activities that will contribute to the participants' knowledge of the subjects they teach and to their ability to teach them. Due May 15.

Internationalization of the US Economy (DOL) — Using existing data research the internationalization of the U.S. economy, its consequences for the U.S. labor market, government responses to the resulting problems and prospects for the future. Due May 8.

Rangeland Research (USDA) — Proposals will be considered in the following areas: (1) Management of rangelands and agricultural land as integrated systems for more efficient utilization of crops and waste products in the production of food and fiber; (2) methods of managing rangeland watersheds to maximize efficient use of water and improve water yield, water quality, and water conservation, and to protect against floods, erosion and other detrimental influences; and (3) revegetation and rehabilitation of rangeland including the control of undesirable species of plant. Due May 15.

Injury and Injury Prevention in Children (NICHD) — For studies that identify and measure observable behaviors of parents and children or modifiable environmental conditions that are precursors of injury occurrence or injury avoidance (safety). Also, studies to: (a) determine the most effective educational training procedures for differing populations of concern, (b) identify societal variables that affect accident behavior, and (c) categorize children's responses to accidents, covering both dangerous and safe behaviors. Letter of Intent May 15.

Drugs, Alcohol, and Crime (NIJ) — Areas for potential research: Improved Abilities to Determine the Extent of Drug Abuse at Local Levels; Improved Abilities to Quantify How Much Crime is Attributable to Drug and Alcohol Abuse; Costs of Drug and Alcohol Abuse; Patterns of Drug/Alcohol Use and Relations to Development of Patterns of Delinquency and Crime; and Crime Incidental to Drug Trafficking. Due May 22.

Funding Opportunities at NSF — A workshop on grant opportunities at the National Science Foundation is being co-sponsored by the East Central Florida Consortium for Higher Education and Industry and Embry-Riddle Aeronautical University. Two NSF administrators will provide interested faculty with information about NSF programs, research in predominately undergraduate institutions and the process of applying for NSF funds.

The workshop is to be held May 1 from 9 a.m. to 1 p.m. in Daytona Beach.

For further information, please contact Nancy Morgan, Division of Sponsored Research, x2671.

Official memoranda

Publication of these memoranda and announcements about University policy and procedure constitutes official notice to faculty and staff.

To: All Teaching Faculty (Academic Deans & Department Chairpersons)
From: I. E. Knight,
Director of Records & Registration
Subject: Notification of Grade Collection Rolls for Spring Term 1985

Grades for all on-campus, area campus and continuing education students are due in the Registrar's Office no later than 12 noon on **Monday, May 6, 1985**. In order to meet this deadline, it is requested that grade report sheets be returned for individual sections as soon as you have entered the grades so these reports may be checked for completeness before they are forwarded to our office for processing. Please have the grade sheets hand-delivered to your Dean's Office. **Do not use the campus mail.** Thank you.

In the event the student:

- Is listed as an auditor, the letter "X" should already be entered.
- Has withdrawn on or before March 1, 1985, he/she will receive a grade of "W".
- Has been dropped for non-payment of fees, her/his name will not appear on this roll although it did appear on previous rolls.

Please note:

The grade sheets must be marked legibly in ink. All grades must be entered under "Grade" on the grade sheet, signed and dated by the instructor.

- | | |
|------------|---|
| Original | (White) Registrar's Copy to be returned to the Dean of your college. |
| 1st Carbon | (Yellow) To be retained by the instructor |
| 2nd Carbon | (Pink) To be retained by the Dean |
| 3rd Carbon | (Orange) Supplied in order that you may post final grades for student information purposes, provided you have obtained the required releases. |

Please handle and mark carefully. Try to keep the grade marks within the space allotted. Please initial erasures and/or changes. We suggest that you use the student's full name to transfer grades from your Final Grade Roll to this Grade Collection Roll. **Numbered lines may not match.**

Remember: Grade sheets should be returned to your Dean's Office — not to the Registrar's Office

To: All Career Service Employees
From: Veronica Livesay,
Staff Council
Subject: Longevity Awards

Please check carefully the following list of all five, ten and fifteen year recipients to be recognized at the annual Career Service banquet to be held on Friday, May 10, 1985, in the University Dining Room. If you were employed by the University in 1969, 1974 or 1979 and your name does not appear below, please contact me at x2626 or Art Lehmann at x2294 immediately. Please note that this experience must be continuous University experience.

FIVE YEAR AWARDS

Mary A. Altomare, S. Scott Baldwin, Carole A. Becker, Marilyn G. Brown, Carolyn J. Burby, Barbara J. Carey, Alice I. Davis, Karen A. Davis, David R. Douglas, Deborah H. Evans, Marty A. Fioramanti, Otho S. Flippin, Patricia J. Frame, Mary F. Friedt, Judith A. Gallo, Benigno E. Garcia, Mark P. Gardner, Janet K. Girard, Karen K. Halthcock, Richard J. House, Alpha Huddleston, Brenda M. Kashow, Thomas G. Kirk, Emil W. Klosinski, Adele M. LaBrake, Diana Lees-Lagrone, Patricia A. MacKown, Carolyn J. McKinney, Charlotte J. Meade, Sharron M. Meadows, Carlos H. Metz, John J. Moody, Michele Anne Murphy, Xuan V. Nguyen, Sharon R. Olson, Pedro J. Perez, Stella A. Porter, Arlene Rashy, Bonnie L. Reed, Jack A. Reinstatler, Carol A. Rumph, Alice C. Smith, Linda R. Stewart, Mary G. Stines, Ernest E. Studly, Elizabeth S. Swayne, June M. Tompkins, Andrea Von Jares, Jane Wamsley, Betty D. White, K. Boyd Winward

TEN YEAR AWARDS

Barbara F. Ailsworth, Jean M. Barr, Thomas L. Blanton, Betty J. Browdy, Doris L. Butcher, Robert C. Canada, Ethel L. Cunigan, Henry D. Denard Sr., Muriel W. Dooley, Lena C. Filteau, Alexander Griorash, Catherine E. Harward, Lois G. Hilliman, Henry J. Kiesel, Richard D. Lavender, Margaret G. Leclair, George M. McCumber Jr., Vivian B. Parries, Pedro M. Perez, Brent Reed, Raymond A. Reichard, Joseph W. Slade Jr., Mary Ellen Smith

FIFTEEN YEAR AWARDS

Erich K. Andersen, Johnny R. Blackwood, Paul G. Bowser, Betty J. Brisson, Max E. Detter, Robert O. Elgin, Omer D. Mann, Richard V. Neuhaus, Willis L. Perkins, Cecil W. Poston, Robert L. Svendsen, Walter A. Teague Jr., Barbara C. Yeater, Gordon L. Young

To: All Faculty
From: L. M. Trefonas,
Vice President, Research & Graduate Studies
Subject: Library Research Carrels

Assignment of research carrels in the library will be made by the vice president for research and the University Research Council. Keys will be issued at the circulation/reserve desk at the main entrance of the University Library to only those faculty members authorized in writing by the vice president.

Ten carrels have presently been built in the library. A few of these have been allocated on a temporary basis to alleviate some of our space problems. At present, at least six carrels will be available on a semester basis. These rooms must be applied for by the end of the first week of classes for that semester. A seventh room will be available upon the discretion of the vice president for research for up to seven days, to be used for short-term projects. Preference to use any of the above carrels will be given to faculty members involved in sponsored research.

All rules and regulations of the library apply to the use of the research carrels. No eating, drinking, or smoking will be permitted in any areas of the library — these restrictions apply to the carrels. We expect faculty using these rooms to cooperate with these rules. Repeated offenses will result in re-assignment of carrel privileges.

All library materials left in the research carrels must first be checked out at the circulation desk. The library staff will retain the right to inspect any room at any time. Any library material not properly checked out will be returned to the shelves. Repeated offenses will result in suspension of study room privileges.

A charge of five dollars (\$5) will be assessed to any faculty member who loses the key to the research carrel.

All assignments will be made to individuals involved in research only. No departments will be eligible for access to a carrel. In those carrels secured on a semester basis, the last day of testing for the semester normally will coincide with the last day for use of the room unless arrangements have been made (in writing to the vice president for research) for use of the room between semesters.

Faculty must reapply each semester for use of the room and be reevaluated on each case's individual merit. There is no guarantee the carrel will be available to an individual who qualified the previous semester.

Depending upon the demand, two people may be assigned to the same carrel. If that is the case, the individuals involved will be expected to work out mutually agreeable arrangements.

All requests for summer semester 1985, must be received by April 26, 1985, in the Office of the Vice President for Research, AD 243.

To: PROFS Users
From: Etta Jean Smith,
Office Operations Manager, Computer Services
Subject: PROFS Classes

The following PROFS classes will be offered during April:

Customizing Menus on Thursday, April 18 at 10-11 a.m. and 2-3 p.m. The purpose is to set PF keys on PROFS Main Menu to functions you use most — saves time and cuts through some menus. **Nickname Files & Distribution Lists** on Tuesday, April 23 at 10-11 a.m. and 2-3 p.m. The purpose is to set up nickname files and distribution lists pertinent to individual users accounts. **Basic PROFS Review** on Thursday, April 25 at 10-11 a.m. and 2-3 p.m. The purpose is to review basic PROFS functions with users who are not quite comfortable with their command of the system.

Training will be held in CCI Room 207. To sign up for a session, call x5608.

To: All University Personnel
From: Bill Goldsby,
Business Services
Subject: Auditron Usage

Effective immediately you may be requested to present your UCF ID Card while making copies with an auditron at any of our copier equipment located throughout the University campus.

Your cooperation will be greatly appreciated.

To: UCF Community
From: Dick Scott,
Director, Business Services
Subject: Catering On-Campus

The University has signed a contract with Saga Food Service to provide for all your catering needs on-campus. This exclusive contract covers everything from coffee and rolls to full banquet meals. Please call Shawn Sharp, x2651, to make arrangements for your next event. Any exceptions to this contract may be addressed to me at x2624 or in Administration 362. Thank you and bon appetit.

Official memoranda

Publication of these memoranda and announcements about University policy and procedure constitutes official notice to faculty and staff

To: Principal Investigators
Contracts/Grants
From: Joan R. Burr,
Director, Sponsored Research
Subject: E&G Matching Funds

Because the University's fiscal year ends June 30, 1985, it is necessary for any E&G matching funds to be completely spent by that date. If it is not possible to utilize these funds before the end of the fiscal year, please contact Dr. John R. Bolte, associate vice president for Academic Affairs by the first week in May. It may be possible to work out an exchange of current year funds for a new allocation in fiscal year 1986.

If you have any questions concerning these funds, please contact Rusty Okoniewski at x2671.

To: The University Community
From: Lynn LaBrake,
Associate Director, Library
Subject: Extended Library Hours

As requested by the Student Government, the Library hours will be extended for final exam weeks, April 21 through May 1, 1985.

The Library hours during this period are as follows:

| | |
|---------------------------|-----------------------|
| Sunday, April 21 | noon to 11 p.m. |
| Mon.-Thurs., April 22-25 | 7:45 a.m. - midnight |
| Fri., April 26 | 7:45 a.m. to 11 p.m. |
| Sat., April 27 | 10 a.m. - 11 p.m. |
| Sun., April 28 | noon to 11 p.m. |
| Mon.-Wed., April 29-May 1 | 7:45 a.m. to midnight |

Student gains recognition for success

The Department of Mathematics last Thursday awarded one student two scholarships as recognition for excellent performance in the field.

The recipient, James T. Franklin, attended Oak Ridge High School, Orlando, and got his high school diploma from Mid Florida Tech. about 10 years ago. He attended Valencia Community College for three years and expects to earn his bachelors degree from UCF in August.

Rene Rodriguez, assistant professor in charge of scholarship awards, said that in spite of his late start, Franklin has an outstanding record of achievement at UCF.

In recognition of this Franklin was given the \$100 Maria Hernandez scholarship, and also the \$100 Analysis scholarship. Maria Hernandez was a '81 UCF graduate who was killed in an accident. This is the second year a scholarship has been given in her name.

The Analysis award is open to all students who have finished Analysis I and the committee decided Franklin had the best performance.

Franklin is a member of the Pi Mu Epsilon honorary mathematics fraternity and has the goal of teaching mathematics in a university. He plans to earn his masters degree in math at FSU where he has been offered a graduate teaching assistantship.

FRANKLIN

Library honors winners and faculty

The UCF Library's essay contest, "A Nation of Readers," comes to a conclusion with a celebration on Friday, April 19, at 11:15 a.m. The contest's theme was to show the significance of reading in American life and to celebrate National Library Week, April 14-20.

The celebration will be to honor the faculty Library representatives and the winners of the essay contest, and will be held in the Staff Lounge on the third floor of the Library.

First place winner in the essay contest was Joanne W. Terry, a journalism major in her senior year; second place went to June S. Garrett, a sophomore majoring in business administration, and third place winner was Ronnie Ciarrocca, a journalism major in her senior year. Honorable mentions went to Tom Netsel, a journalism senior, and Philip Behr, a senior majoring in business.

FREE GOLF

The final Intramural Golf Tournament, a team scramble event, will be held Friday, April 19, on the UCF "Home On The Range" golf course. This is a six-hole event (no entry fee) in which only the best shot of all team members is played on the succeeding shot. Sign up at Rec Services and choose your T-time for 12:30, 2, 2:30 or 5 p.m.

Staff Council luncheon and Fashion Show

Diners will be treated to the Summer Fashion Show when they lunch at the University Club on Thursday, April 25, between 11:45 a.m. and 1:15 p.m.

Career Service Staff Council has lined up models from among University workers and students to provide tea room style modeling of fashions provided by J. Byrons of Florida, Butler Plaza store, and current offerings of Mary Kay Cosmetics.

J. Byrons is offering a \$25 gift certificate to be given away during the show. There will also be gifts from Mary Kay and Freddie's Steakhouse.

Jazz great Thielemans at UCF

Some heady days are in store for students at the UCF Jazz Lab, which departs on its first-ever tour April 18, then returns to campus April 24 to welcome the legendary Toots Thielemans, virtuoso of the be-bop harmonica.

Thielemans, who has been consistently voted best in his category by reader polls for a unique instrumental style, will appear with the Jazz Lab in concert at 8 p.m., Wednesday, April 24 in the UCF Student Center Auditorium.

Tickets are \$3 general admission; UCF students will be admitted free.

Thielemans has been described by one reviewer as the possessor of "a style of jazz so unique, he truly stands alone throughout the world."

Research grants to benefit UCF

A continuation grant for \$166,393 from the University of West Florida to the Small Business Development Center (A. T. Polfer) to extend counseling services to clients in seven Central Florida counties led the March list of funded projects reported by the Division of Sponsored Research (DSR).

DSR (Mary Ann Johnson) received \$71,987 from the Defense Department/Naval Technical Equipment Center to support additional development of manual war game-based training systems.

The SBDC also was awarded \$54,000 by UWF to initiate and operate a new international business studies program.

A Life Science Technology Training program in Undergraduate Studies (P. R. McQuilkin) received \$67,300 from Florida A&M; F. J. Gomez, computer science, was awarded \$24,207 by Hughes Aircraft for a feasibility study on training simulators; and \$15,000 went to J. W. Gracey, cooperative education, to support an intern program offered by International Laser Systems.

L. C. Malone, computer science, was awarded \$1,500 from Orange County courts and another \$310 from Orange County toward the operation and administration of UCF's Institute for Statistics Analyses.

Cypress Gardens awarded \$1,000 to Abe Pizam and R. J. Calantone of the Dick Pope Tourism Institute for a market survey for the tourist mecca; while R. L. Phillips, electrical engineering, received \$39,504 from UCF/EIES in support of a light-wave technology laboratory.

Also, \$10,000 (FL/DOE) to G. E. Farig, educational services, for development of a training model handbook for student teacher supervisors, and an additional \$5,000 from the same source to D. J. Meador, educational services, for the same project.

Support funds in the amount of \$9,000 were awarded to the NASA/State Technology Applications Center (Al Pozefsky) by the University of Florida, and \$130 from Orange County Media went to R. L. Arnold, instructional resources, in support of audiovisual services.

Coaches Named

Head Football Coach Gene McDowell has announced that John Sowinski, student body president, and Charles N. Micarelli, dean of undergraduate studies, have been named honorary coaches for Friday night's Black-Gold football game.

Game time is 7:30 p.m. at the Orlando Stadium.

"We wanted to select a UCF student leader and a faculty leader," McDowell explained about the selection process. "The search committee checked around and we came up with them as our final selections."

Micarelli will coach the Black squad, with assistance from UCF offensive coordinator Mike Kruczek. Sowinski will oversee the Gold team, assisted by UCF inside linebacker coach Al Seagraves.

Dr. Howard Eves, professor emeritus, University of Maine, was the recent speaker for the Mathematics Colloquium. He spoke on how designs for everyday items can be obtained from mathematical formulas and patterns.

SONTAG

Photo by Thomas Victor

Screenwriting workshop to be held at UCF

The UCF Department of Communication's Film Program is cooperating with the Florida Motion Picture and Television Association in presenting a two-day seminar on writing for the screen next weekend, April 20-21. The featured expert will be the award-winning screenwriter and producer, Bob Aller. Aller teaches at the University of Southern California and has written such screen plays as "A Killer In The Family" which starred Robert Mitchum.

The program on Saturday will begin with registration at 9 a.m., after which the topics will include establishing tone and plot, hooking the audience quickly, the significance of research, and how to get started on a script. Story and character will occupy the afternoon until 5 p.m. Sunday's session begins at 9:30 a.m., covering details of creativity, dialogue, theme, titles, and format guidelines. The seminar will also cover the business and legal aspects of the craft, including pay scales. The tuition for students is \$35.00, and \$75.00 for others. Advance registration can be made by calling 774-5342. Other details can be obtained from Giles Hoglin at x3224 or x2681.

Writer Sontag to speak at UCF

Susan Sontag, renowned essayist, novelist and film director, is coming to Orlando on Tuesday, April 23 to speak to students at UCF. Both Wendy's Old Fashioned Hamburgers and the Atlantic Center for the Arts are sponsoring Miss Sontag's trip.

Sontag will read from her collective works and hold informal discussions. Her appearance at UCF's Black Box Theatre (main campus) is at 4:30 p.m. and is free to the public.

Known as the darling of the New York intellectual establishment, Sontag has been the chief explicator in the U. S. of the newest forms of literature, art and culture. Her critical essays in literary journals and publications on such subjects as camp, underground and avant-garde movies, and post-abstract painting were instrumental in establishing her as an important, intellectual writer in the 60's and 70's. A collection of her most prominent essays was recently published in 1982 in a book entitled *A Susan Sontag Reader*.

For more information on Sontag, please contact Mia Fiscella at (904) 427-6975 or Karen Madanick at (305) 644-2320.

Unique UCF Research

UCF's Florida Solar Energy Center (FSEC) continues on its quest to build the first ocean thermal energy conversion (OTEC) plant in the continental United States. Jim Huggins, research associate, said. The Center expects to construct a small plant in the near future.

On March 28, Louis Rotundo, special assistant to President Trevor Colbourn, testified before the U.S. Congressional House Appropriations Subcommittee on Energy and Water Development. Rotundo updated the committee on the results of a OTEC study that was completed by the Center at the end of 1984.

Earlier this year, the U.S. Department of Energy awarded the FSEC a \$200,000 contract, which will allow the Center to move into the next phase of their research.

According to Huggins, the Center's research will delve into the feasibility of using hot water from existing nuclear power plants and cold water from deep wells. OTEC requires hot and cold water that has at least a 40 degree difference in temperature. Using deep well water with surface water doesn't provide the needed difference in temperature, he added.

The Center has subcontracted Creare, Inc., of Hanover, New Hampshire to participate in the project. Creare, a private industry, will provide simulation designs for the OTEC plant. The simulation allows FSEC's researchers to explore the relationship between design and system performance.

The UCF Report

The UCF Report is the University of Central Florida's official publication, whose purpose is to inform the University community through announcements, official memoranda and items of general interest. Publication and announcements and official memoranda about University policy and procedures in The UCF Report constitutes official notice to faculty and staff. The UCF Report is a weekly publication most of the regular academic year and biweekly during the summer sessions, at a cost of \$180 per issue, or 7.5 cents per copy, paid for by the Office of Public Affairs, ADM 395-J, x2504.

Copy submitted on or before Thursday noon of the week before publication receives handling and space priority. Copy is accepted after this deadline but is subject to editing or delay until the succeeding publication date.

Employment Opportunities

UCF is an Equal Opportunity / affirmative action Employer

For resume of current openings, call Career Opportunity Line, 275-2778

The following is a list of positions currently in the recruitment process. It is the responsibility of the individual interested in state employment to complete successfully any required performance and/or written exams prior to being considered for a specific job opening. Because of limited facilities we administer career service tests by appointment only, on a limited but continuous basis. If you are unable to schedule an exam for a current vacancy before the posted closing date, we encourage you to proceed with the exam so that you will be eligible for the next position in that class which becomes available. All scores are valid for eighteen months. For further information and test appointments, call 275-2771. All inquiries must be made through the personnel office for systematic handling.

Faculty positions available — see state university system position vacancy announcements.
